EDUCATION

Bachelor of Science in Computer Science   **June 2018**
   University of California Riverside   GPA: 3.71

TECHNICAL SKILLS

Programming Languages: Javascript(1 yr), **Node** (1 yrs), **Python** (2 yrs), **Java** (2 yrs), **C++** (4 yrs)
Databases: PostgreSQL, MongoDB, Redis
Frameworks/Libraries: React, Material-UI, Express, GraphQL/Apollo, Mongoose, Sequelize, Django
Other: Git, Docker, docker-compose, CI/CD, AWS, Heroku

PROJECTS:

ShareQ – shareq.app
- ShareQ is a personal project to practice building SPAs. It uses the Spotify API to make shared playlists
- Built a React frontend that fetches data with WebSockets
- Built a Django backend with an asynchronous web server to support WebSockets via Django-channels

PostBoard – thepostboardapp.com
- PostBoard is a side project for learning the MERN stack. It is a web app for finding local garage sales
- Frontend is built on React, backend is built on Express/Node and data store is on MongoDB Atlas
- Planning to use React Native for mobile apps, serverless for cheaper hosting, and TypeScript for better code

Airline Project using Docker Containers – Code: https://github.com/jmora060/AirlineDatabaseApp
- Containerized a Postgres database and a Java program using Docker CE and Docker-Compose
- The Java program queries the Postgres database for Airline data
- Wrote a detailed README.md for installing and running the containers

RELEVANT COURSEWORK

Databases
   - Studied relational database concepts such as Foreign Keys, Joins, B+ Index Trees, hashing, and more
Networks
   - Studied the 7-layer network model, TCP/IP, routing/forwarding tables, algorithms and HTTP protocols
Machine Learning
   - Learned about various Machine Learning algorithms, techniques, and validation methods
Information Retrieval
   - Studied indexing for rapid queries, ranking algorithms, Map-Reduce and search engines
   - Built a search engine of 5 GB of crawled web pages in Java, SpringBoot, and Lucene

WORK EXPERIENCE

Manager   **Dec 2018 – Present**
Rolling Robots – Los Angeles, CA
- Demonstrates leadership skills by overseeing 4 employees, organizing facilities, and coordinating schedule

INTERNSHIPS

Information Technology Intern   **June 2018 – Aug 2018**
Creative Artists Agency – Los Angeles, CA
- Worked with the Infrastructure Operations team to facilitate Voice/Video communication services
